

# Lifetime Mortgage

## Fact Sheet

Effective 18th November 2024

### What is a Lifetime Mortgage?

Our Lifetime Mortgage allows you to release money from your principal private residence, tax free, without having to sell it. You retain full ownership of the property and continue to live in it for as long as you wish. You do not have to make monthly repayments unless you want to. The loan will usually be repaid from your estate or on the sale of your property.

### Who is it suitable for?

Our Lifetime Mortgage is designed for customers who:

- Are aged 60 or over. If there are two of you, the younger person must be aged 60 or older.
- Own their own residential property in the Republic of Ireland.
- Are resident in the Republic of Ireland.
- Want to borrow a minimum of **€20,000**.

### For your property to be eligible:

- It must be your primary residence.
- It must be of standard construction located in the Republic of Ireland.
- It must have a minimum value of **€225,000** outside of Dublin or **€300,000** in Dublin.
- It must have a maximum of two named owners on the deeds of the property.
- It must be mortgage free. If there is a small existing mortgage or charge on the property, this must be cleared either from savings or from the proceeds of your Lifetime Mortgage.
- Certificate of Title must be confirmed by your Solicitor.
- Home Insurance must be maintained at all times on your property.
- All local property tax charges must be up to date.

## How much can I borrow?

- The minimum loan size is **€20,000**.
- The amount you can borrow is calculated as a percentage of your home's value and depends on your age, subject to an overall maximum of **€500,000** regardless of age or property value - **See Table 1**.
- Customers aged 60 may borrow up to a maximum of 15.0% of the value of their property.
- For example a customer who is 70 years of age can borrow a maximum of 25% of the value of their property - **See Table 1**.
- If there are two of you borrowing together, the amount available will depend on the age of the younger borrower.
- In order to gain an accurate value of your property, an independent valuer will be appointed by Spry Finance.

### Calculation of the Lifetime Mortgage amount:

The maximum loan size is determined by use of a maximum Loan to Value Ratio ("LVR") specified according to the age of the younger nominated resident.

Table 1 summarises the range of LVRs according to the age of the younger nominated resident.

**Table 1**

Age	Loan Limit*
60	15%
65	20%
70	25%
75	30%
80	35%
85 & older	40%

\*Loan Limit means the percentage of the property's value that can be borrowed.

### Interest Rate

**6.70%** per annum fixed rate, added to your loan monthly. **Annual Percentage Rate ("APR") 7.11%** (assuming a loan amount of €75,000) over a term of 15 years.

Rate is as at date of this Fact Sheet but may change before the loan is drawn down. Loan offer is valid for 30 days.

### Optional Repayments

You can choose to pay up to 10% of the original loan amount per year to service the interest and manage the balance of your loan without incurring an Early Repayment Charge (ERC) should you wish to:

- You can do this by making regular monthly direct debit repayments or by electronic payment.
- Payments in excess of 10% of the original loan balance per year may result in an ERC.

Full details of the ERC are provided in the Spry Finance Guide to a Lifetime Mortgage, including details of exemptions to the ERC.
